

My name is Sara Arreola, and I was slammed on July 29th, 2003 by Supra Telecom. I was able to notice a week later since I tried to reach my daughter out of state and I was not able to call Las Vegas. I contacted BellSouth my carrier for about 10 years now, and I told that I was probably slammed by Supra Telecom. Since then I have received 16 different invoices from Supra Telecom. 8 invoices with account number F633436 and 8 with account number F633471. My son who works for a telephone company contacted Supra Telecom to let them know they slammed me and to stop sending invoices since BellSouth had already fixed the problem and I was with BellSouth. Supra Telecom STILL insisted on sending invoices with the two different account numbers. I even got notices with threats to cut off my service, which thanks to my son I was explained that they wouldn't be able to since BellSouth is my local Carrier. My son called 3 more times each time he was asked my driver lisence number and social security, and each time they would tell him they did not understand why they did not match. I was then told by a supervisor that he would stop the invoices and closed the account, finally he admitted he saw that supposively I switched to Supra and a week later I left. Now the last incvoice I got is on December 2, 2003 for account number F633436 in the amount of \$233.40. Please help me!!!! Stop companies like Supra Telecom from trying to obtain business illegally from people, and creating two accounts under the same telephone number and name to try to get twice their profit...
